  - Having a long-term B2B partner.
  - Providing customer satisfaction with respect to the support of their operations by means of a qualified technical team.
- ✓ Achieve a deep understanding of the clients' end-user priorities and needs.
  - ⚙️ Coordinate roles between in-house and augmented teams.
  - 🌐 Reach the highest levels of service and incident management to ensure 99% uptime.

## How we supported them

We deep-dived into the product.

Gained understanding of customer's model and operations.

Built the team and trained it to be part of the customer's value chain in its support service.

Ensure a team that is sustainable over time.

Proactive monitoring of the platform to identify potential failures that could impact the availability of the service.

Communication is done by email, phone, Zoom calls, and Teams.

We use Jira for task management, planning, pre-planning, etc.

A team of engineers with rotating shifts.
